Trease encer the consents.

The Author affirms the absence of any conflict of interest to disclose. If you hold a contrary view, please express it below. The Author verifies that the names of all co-authors are accurately and correctly listed in the appropriate order, and that their identities have not been misrepresented, including the Author's own identity. The Author attests that all content within the manuscript is original and distinct, with no prior publication or submission for publication elsewhere. The Author assures that the manuscript adheres to all intellectual property rights and does not incorporate any content that infringes upon legal regulations or the rights of any individual or entity. The Author verifies the final proof version of the article and concurs with all the implemented corrections. The Author maintains the copyright to the article's contents, provides the Publisher with the exclusive right for the initial publication of the article, and consents to the dissemination of the published article under the terms of <u>CCBY 4.0 (Creative Commons Attribution (CCBY) 4.0</u>: enabling content to be reproduced, modified, exhibited, shared, redistributed, or otherwise reused for any purpose, including adaptation and commercial utilization, as long as proper attribution is given. The Author confirms to have read all sections in Editorial policies and Publishing policies and comply with them. The Author reserves the privilege to utilize the Author's Manuscript, as published by the Journal, on a personal homepage or for non-commercial use within their institution, provided that the source of the published Manuscript is appropriately acknowledged. Additionally, the Author can employ the Manuscript for further research and oral presentations, use the Abstract of the Manuscript for any purpose, utilize the illustrations and research data in their subsequent works, employ the Manuscript for teaching within their institution, and distribute printed or digital copies of the Manuscript to

colleagues for their personal use or study.

Author certify that all the information contained in this Publication Agreement is accurate and truly reflects the actual facts with reference to the paper in question.
